

ANNUAL REPORT - 2021-2022

Mary Rani Public School aims to be the pioneer of educational institutions, dedicatedly committed towards nurturing and fostering eminence. We strive for excellence in each and every endeavor so as to achieve transcendence.

The school focuses on providing an authentic learning environment where students apply knowledge skills from multiple disciplines so as to widen their knowledge. We focus on both curricular and co-curricular activities where students are trained to have within them responsibility, loyalty, team spirit and healthy competition.

Every academic year training seminars and orientation programmes are conducted for teachers and students to improve and implementing innovative ideas in teaching learning process as well as to take students beyond their current level of learning. This year too teachers participated in all the mandatory workshops by CBSE in the online mode. The objective is related to the mission of providing quality education in the facilitative, challenging and positive environment. This objective is an ongoing process as due to uncertain situation like pandemics, the students were to be tutored individually in their homes.

Competitions and academic activities encourage and foster a healthy and competitive spirit. Value based education and life skills training is imparted so as to make the students morally and socially learned individuals.

The session saw a switch from regular classes in the school to online classes at home. As a result education has changed dramatically where by teaching is being done, through different digital platforms. Regular online classes are being conducted through Microsoft teams. In response to all these challenges, we made use of technology for effective teaching learning to happen.

Co-curricular activities are essential part of school life as they help to enhance the learning process of our students. Through these activities we strive to bring in social skills, intellectual skills, moral values, personality progress and character

appeal in our students. Some of the events are Poster making, dance competition and writing competition. Our students participated in many activities in online mode and got certificates.

In order to Foster the values of national integration, International understanding, religious and culture awareness and tolerance, various national religious and Cultural festivities were celebrated through virtual festivals this year. National festivals like Independence Day, Gandhi Jayanthi, and Republic day were celebrated through virtual platform. Significant recognition is given by the school to different global events like International Women's day, Earth Day, yoga day, road food safety day etc

Parent teacher meeting is held on a regular basis which provide valuable feedback and suggestion and the teachers in return provide them with academic work done and changes made in syllabus and academics. We Thank and congratulate them for their continued support and cooperation.

I conclude by assuring that even though our students engaged themselves in various co-curricular and life skill activities, still top priority is given to academic performance. Remedial teaching, extra classes, revision, unit tests, assignments, Term end exams have kept them busy throughout the year.

I render thanks to our governing body, teaching and non teaching staff and our students and parents who gave us their maximum support and cooperation.

With this I conclude the report. `
